

Course code	20DASe0606		
Course title	Common Basic Astronomies Seminar I		
Term	通年（後期開始） 2nd - 1st		
Credit(s)	2		
The main day			
The main period			
School/Program	School of Physical Sciences		
Department/Program	Department of Astronomical Science		
Category	Common Base		
Lecturers			
Instructor			
<table border="1"> <tr> <td>Full name</td> </tr> <tr> <td>NAKAMURA FUMITAKA</td> </tr> </table>		Full name	NAKAMURA FUMITAKA
Full name			
NAKAMURA FUMITAKA			
Outline			
Students regularly attend seminars on astrophysics held at Division of Science, NAOJ, and learn about the latest research results in various fields. In addition, students make presentations about his or her research results at the seminar.			
Goal			
Students learn about the latest research results and how to make presentations by presenters, and use them for your own presentations.			
Grading system			
02:Two-grade evaluation (P: Pass, F: Fail)			
Grading policy			
Reports summarizing what you learned at the seminar (specific details will be announced separately) and student's presentation			
Lecture Plan			
Seminars are held every Wednesday. Details of each seminar (presentation abstracts and presenters) will be announced on the web page or by e-mail.			
Location			
Seminar room at ATC building or online			
Language			
Basically English			
Textbooks and references			

Instructors present some textbooks and scientific papers at the seminar
