

## Syllabus Reference

Course title	Introduction to Observational Astronomy II		
Term	後期 2nd Half		
Credit(s)	2		
The main day		The main period	
School/Program	School of Physical Sciences		
Department/Program	Common Subjects of Physical Sciences		
Category	Common Subjects of Physical Sciences		
Lecturers	Eiichiro Kokubo, Makoto Yoshikawa and others		

## Instructor

Full name

\* KOKUBO EIICHIRO

Outline	Structure, origin and evolution of solar system bodies such as planets and satellites. (in Japanese)
Goal	To understand the nature of planets and small bodies in the solar system and extrasolar planets.
Grading system	
	Grading system
Grading system	
Grading policy	Students are supposed to turn in reports on the subjects given in class at the end of the school year.
Lecture Plan	This lecture is an e-learning. Take "the overview of the solar system" first and then proceed as designated preferably.
Location	e-learning
Language	Japanese
Textbooks and references	none
